INSPECTION PROCEDURE

1 Check operation of ABS pump motor.

**PREPARATION:**

Disconnect the ABS actuator connector.

CHECK:

Connect the positive (+) lead to terminal BM (A13-2) and the negative (-) lead to terminal GND (A13-1) of the ABS actuator connector, and check that the pump motor is operating.

OK:

The running sound of the pump motor should be heard.

NG

Replace ABS actuator.

OK

Check for open circuit in harness and connector between ABS ECU and ABS motor relay (Marking: ABS SOL), and ABS motor relay and ABS actuator (See page [IN-28](#)).
