

Agent Calla Walsh

Young progressives are an unpredictable new factor in Massachusetts elections. They're ardent, and organized, and they don't take orders.

We find Calla Walsh [in today's news again](#), as the right tries to sell her as a violent Communist and anti-Semite, in order to further blackwash the left and all protestors. You have your first clue already, since Communists used to be *pro*-Semitic, until very very recently. We have seen that historically the fake Communist and Socialist parties have been heavily Jewish, both here and in Europe, so it should seem strange that the left has suddenly become loudly anti-Israel. It makes no sense from the first word. Why would the left suddenly do a 180 and turn on Israel, right after [the big fake events over there starting in October 2023?](#)

Well, I have told you before and Calla Walsh proves it again. Because she is obviously a Jewish agent hired for her youth and pretty face to front this project. How do I know? Well, let's study that article at Zerohedge I just linked to, to find out.

She got her start organizing for Senator Ed Markey while still a teenager. The perfect profile: earnest, idealistic, a model Gen Z Democrat. But like so many others on the far left, that idealism mutated into something darker—something that most of the Democratic Party still refuses to reckon with. After her stint with Markey, Walsh joined the Democratic Socialists of America (DSA), a group that openly supports abolishing capitalism, borders, police, private property—and, of course, Israel. In case you haven't been following domestic extremism, the DSA also formally adopted ANTIFA into its political framework back in 2019. That's right—the group known for smashing windows, firebombing courthouses, and beating journalists is now a pillar of the left's fastest-growing political organization

I don't have to blow her cover, since the author at Zerohedge just did that several times there. The

DSA is a CIA front, and that is pretty obvious if you visit their Wiki page. It was founded by Michael Harrington way back in 1982, and he was a comrade of Max Schachtman, a Jewish agent and mentor of George Meany. Schachtman had been a fake Communist back to 1921, when he joined Salutsky and Trachtenberg's fake **Workers Party of America**. See, just as I told you: Jews running Communism from the beginning. I covered all this in [my paper on Eugene Debs](#). The WPA was a big backer of Trotsky, real name Bronstein, Jewish. Harrington was awarded the Sidney Award, given by Sidney Hillman, Jewish of course.

The DSA grew exponentially with the run of **Bernie Sanders** in 2016, swelling from 6,000 to over 100,000 now. Sanders is Jewish of course, so again, ask yourself how and why the DSA would produce these virulent anti-Semites like Calla Walsh and why Sanders would be in their company?

This is also curious: the DSA is for the abolishing of USAid, which Trump just did. But the left is supposed to be *against* that, right? So something doesn't add up there. Strange that the far right and far left have the same platform points, eh? Strange that the left and the right are both pushing you in the same direction, hard RIGHT into the arms of the military, the right doing that by embracing populism and the left doing it by blackwashing itself every day in the news. Just a coincidence, I'm sure. Couldn't all be part of a big script.

Another big clue in that paragraph is the Antifa link. [I have previously shown you Antifa](#) is another CIA front and fake, so DSA's link to Antifa is just more proof they are the same.

But let's return to Calla Walsh:

She moved on to launch Palestine Action U.S., an offshoot of the UK-based organization that was just formally designated a terrorist group by the British government. In 2024, Walsh was arrested and jailed for sabotage at an Elbit Systems facility in New Hampshire, a defense contractor that supplies equipment to both the U.S. and Israeli militaries.

Palestine Action is just another CIA or MI6 front organization, staffed by undercover soldiers or agents, so we are seeing Israel pretend to protest itself, in order to generate sympathy and blackwash protestors. We have seen it a million times: the Jews attacking themselves to control the opposition. That is what all the campus protests are about as well, at places like Harvard and Columbia. I have shown you those protests aren't led by students, but by outside protestors in their 30s—many of them admitting they are Jewish—with the media playing along. It is all just one more military psyop.

And now Calla Walsh is in Iran in an Arab scarf, chanting Death to America. You have to laugh. Why would the State Department sign off on that? They got a note from CIA, I guess, saying it was OK. The whole thing is ludicrous, and looks more staged than a TED conference.

Don't believe it? Just look at Columbia University's CUAD protest group which openly called for the "total eradication of Western civilization." Their spokesperson, Mahmoud Khalil, was welcomed by progressive royalty in Washington as if he had cured cancer—making appearances with Bernie Sanders, Rashida Tlaib, and Ilhan Omar. No denunciations. No questions. Just smiles and selfies.

That is hard to understand until you know what I know. It now makes sense, doesn't it? It's all the usual vaudeville with the usual actors, including, as you see, the Jewish Bernie Sanders again. Why would Sanders be involved with this unless he knew it was controlled opposition? He knows Calla Walsh and all these other campus protestors are Jewish like him, being run by CIA or some other Intelligence group to make anyone protesting the government look like a dirty Communist, a traitor, and a foreign operative. This is meant to keep you quiet and well behaved, and to undercut any revolutionary spirit you may have. It is done to drive you right into the waiting arms of the defense industry, who is there to protect you from these malcontents.

Another clue is that, as usual, these alleged violent terrorists like Walsh keep getting arrested, but somehow they just keep dodging jail time and coming back. How does that work, exactly? That is proof they are agents more than anything, since only agents can dodge trials and jail time like this. For example, Calla Walsh was allegedly arrested and jailed (for a few hours) in 2024 for sabotage of defense contractor Elbit Systems in New Hampshire, a supplier of Israel. She was a known member of Palestine Action, a terrorist group. Well, she should have been on a terrorist watch list after that, right? So, again, why did the US government just allow her to travel to Iran and give speeches in Farsi? And when did she learn Farsi? As I say, this is all too easy to unwind. It is embarrassing.
