

# **COLLISION REPAIR INFORMATION**

## **FOR THE TOYOTA DEALER**

**TITLE:** URETHANE ADHESIVE SEALANT FOR  
FIXED GLASS INSTALLATION

PAGE 1 of 3

**SECTION:** STRUCTURAL REPAIR      **BULLETIN #31**  
**MODELS:** ALL  
**DATE:** NOVEMBER 1988

In order to comply with FMVSS 212 – Windshield Retention and FMVSS 216 – Roof Crush Resistance, the factory uses a urethane adhesive sealant with bonded strength of not less than 40 kilograms per square centimeter or 569 pounds per square inch for certain bonded windshields and rear windows on Toyota vehicles.

A Urethane adhesive sealant of at least equivalent strength must be used to maintain these retention and roof crush standards when windshield glass replacements are performed by either the dealer or an outside glass shop.

Since the adhesive kits listed in Toyota Repair Manuals are not available in the U.S.A., a listing of some locally available equivalent materials is provided below. Be sure to follow the sealant manufacturer's instructions for best results.

- CVS Urethane Auto Glass Sealer by American Sure Seal  
Bonding strength = 600 pounds per square in. (approximate)
- Super Fast Urethane by 3M  
Bonding strength = 1000 pounds per square in. (approximate)
- Unrest 212 by Kent Industries  
Bonding strength = 600 pounds per square in. (approximate)
- Urethane E Auto Glass Sealer by Protective Treatment Inc.  
Bonding strength = 600 pounds per square in. (approximate)

For more detailed application information, see the attached "Urethane Adhesive Sealant Application for Toyota Models".

Rear quarter windows on some models are bonded, however, the adhesive for these windows requires less bonding strength and therefore, use of Butyl sealer may be sufficient for these windows.

This bulletin is for information and clarification purposes only. Existing Warranty policy and Flat Rate information have not been changed. Toyota is not responsible for problems that occur from usage of improper sealants or procedures which fail to meet Toyota specifications. PLEASE CONSULT THE APPROPRIATE TOYOTA SERVICE MANUAL FOR THE PROPER REPAIR PROCEDURES.

**NOTE: PLEASE ROUTE THIS BULLETIN TO YOUR COLLISION REPAIR CENTER  
MANAGER**
